DAVID YUANZE LI

APPLIED MATHEMATICS / ARTIFICIAL INTELLIGENCE / CYBERSECURITY

Thousand Oaks, California | DLi134360@gmail.com

THOUSAND OAKS HIGH SCHOOL

Class of 2027

Center for Advanced Studies and Research | AP Calculus BC, AP Statistics, AP Seminar, AP Research

RESEARCH & SELECTED PROJECTS

Carnegie Mellon University | Speech AI Research Intern

2024–present

- Under Prof. Min Xu, assembled ~32,000 three-second audio clips and evaluated AI models for detecting stuttering.
- Extended the research toward attention-based localization and reference-free fluent speech reconstruction.

UCLA | Computational Genomics Volunteer Researcher

2025–present

- With Prof. Frank Alber, analyzed 3D genome data and disease annotations to interpret DNA methylation markers.

UC Davis COSMOS | Applied Mathematics

Summer 2026

- Studied set theory, topology, and probability; presented RSA's proximity vulnerability through Fermat factorization.

SELECTED HONORS & PRESENTATIONS

2026 IEEE EMBC, Toronto — late-breaking abstract/poster on stuttering AI and fluency reconstruction

2026 Ventura County Science Fair — 1st Place; California State Science Fair qualifier

2026 AIME qualifier — AMC 12: 105; AIME: 8/15

2026 AACR Special Program for High School Students — research presenter

2025 ICIBM Future Scientist in AI — oral presentation and travel award

2025 Ventura County Science Fair — 2nd Place for stuttering-detection research

2024 Math League International Tournament — bronze medal

2024 CyberPatriot — Platinum tier, state round

2022 CyberPatriot middle-school national semifinalist — 13th among 260 teams

LEADERSHIP & COMMUNITY

Cyber Watch Club President / CyberPatriot Team Leader

2020–present

- Lead cybersecurity instruction and mentor teammates through practice and competitions.

Research Literacy Instructor / Math Tutor

2025–present

- Guide younger students in reading research literature and provide mathematics tutoring.

MORE ABOUT ME

Cross-country (3rd, Ventura County two-mile race) • Mathematics tutor • Student volunteer
Python, Bash, Linux, machine learning • Languages: English, Chinese; basic Spanish
